Service, Spares and Fumigation

FOR ALL MAKES AND MODELS OF CLEAN AIR EQUIPMENT

ENVAIR TECHNOLOGY

Clean Air & Containment

Envair Technology provide comprehensive ongoing support for a wide range of cleanroom apparatus including:

- Servicing and maintenance
- Validation and testing
- Routine and emergency VHP fumigation
- Genuine spare parts and consumables

Our trusted reputation is built on over 50 years of designing, manufacturing and maintaining Fume Cupboards, Isolators, Microbiological Safety Cabinets, Laminar Airflow Cabinets, Downflow Booths and more.

For a quick, efficient solution that minimises downtime and maximises the lifespan of your equipment, please contact us:

MICROBIOLOGICAL SAFETY CABINETS

Adhering to BS EN 12469 standards, our expert testing service for Microbiological Safety Cabinets includes:

- Airflow visualisation studies
- Airflow velocity measurements
- Airflow indicators and alarm system checks
- HEPA filter integrity testing for containment
- KI Discus test for proven operator protection

FUME CUPBOARDS

In accordance with COSHH regulations, and standards such as BS EN 14175 and HSG 258, Envair Technology deliver comprehensive commissioning and maintenance testing for Fume Cupboards. This includes:

- Airflow visualisation for optimal containment
- Airflow and alarm system testing for reliable operation
- Filter integrity testing to guarantee safety and efficiency

LAMINAR AIRFLOW CABINETS

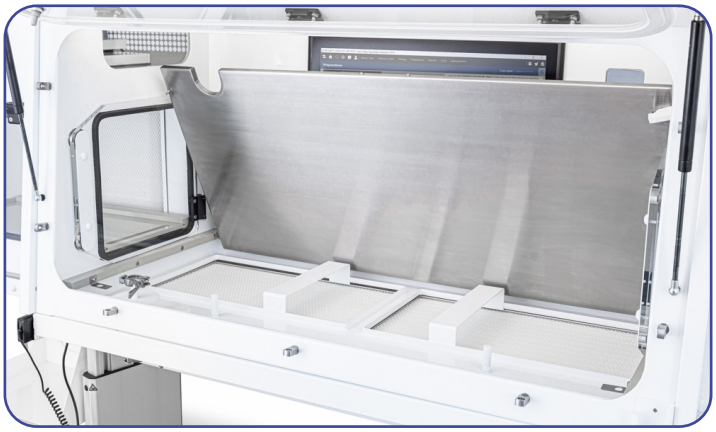
Envair Technology offer safety and performance testing for Laminar Airflow Cabinets, ensuring compliance with ISO 14644 standards. Our services include:

- Airflow velocity measurement and uniformity checks
- Airflow visualisation studies
- Particle count testing to verify ISO 14644 classification

ISOLATORS

We offer maintenance and validation services for all types and makes of isolators. The range of tests available includes the following and more:

- Airflows and air change rates
- Particle counting
- Filter integrity testing



FUMIGATION

Envair Technology's Vaporised Hydrogen Peroxide (VHP) fumigation service is a highly effective solution for complete disinfection of your critical environments. Achieving a validated 6-log kill, VHP technology offers superior decontamination for a pathogen-free space, with no residue left behind.

Our service includes:

- Rapid and efficient decontamination
- Full regulatory compliance documentation
- Routine and emergency fumigation visits
- Expert technicians experienced in VHP application

HEPA FILTERS

HEPA filters are vital for protecting your critical processes, so our experienced engineers provide a specialised HEPA filter testing service. We will ensure your HEPA filtration systems maintain their integrity and perform to their maximum potential through:

- Accurate and reliable testing procedures
- Detailed reporting and analysis
- Testing to relevant industry standards (e.g. ISO 14644, BS EN 12469)
- Bespoke testing schedules to suit your needs

To schedule your validation, request urgent assistance or find out more, please contact us today:

SPARE PARTS AND CONSUMABLES

We maintain a large in-house stock of critical spare parts for a wide range of containment equipment. All our engineers carry a supply of critical parts for immediate repair whilst onsite.

To ensure minimal downtime, our spares service offers:

- Quick availability due to high stock levels
- Same-day dispatch for many parts
- Installation by our skilled engineers, as needed
- Genuine, high-quality components for all brands of equipment

If you need an urgent replacement, please let us know and we'll find the fastest way to get your order to you.

To place an order or learn more about our spare parts service, contact us today:

QUALITY STATEMENT

Envair Technology provide world class design and manufacturing expertise for a full portfolio of cleanroom and containment solutions. We work with healthcare, pharmaceutical and laboratory facilities around the world, to protect the safety of teams handling hazardous compounds and maintain product integrity. Our engineers and production team are committed to the highest standards of excellence, meeting the requirements of ISO 9001:2015. We provide a comprehensive maintenance, testing and parts service for all our products, to ensure a lifetime of trouble-free use.
