Spare Parts for Clean Air Equipment

ENVAIR TECHNOLOGY

Clean Air & Containment

FAST, RELIABLE AND HIGH-QUALITY REPLACEMENT PARTS

Envair Technology understand that minimising downtime is critical to maintaining the performance and safety of your equipment.

Along with our servicing, validation and fumigation services, we offer a comprehensive range of spare parts and consumables for all makes and models of fume cupboards, microbiological safety cabinets, isolators, downflow booths and other clean air solutions.

With over 50 years of expertise in designing, manufacturing and maintaining clean air and containment products, our spare parts service offers:

- **Genuine, high-quality parts across all brands**
- **Large UK-based stock**
- **Same-day dispatch on most items**
- **Rapid installation engineers**
- **Strategic stocking locations**
- **Dedicated support team**

Whether you require routine consumables or essential replacement parts, we will keep your operations running smoothly.

COMPREHENSIVE SPARE PARTS AND STOCK MANAGEMENT

We take a proactive approach to spare parts supply, ensuring that the components you need are readily available whenever you need them. Through the strong relationships we have built with our trusted suppliers, we can quickly source non-stocked parts and reduce lead times.

Our extensive stock of essential replacement parts for same-day dispatch includes:

- **Hatch filters**
- **Pre-filters**
- **Light tubes**
- **Fans**
- **Glove sleeves**
- **Door retaining catches**
- **Silicone O-rings**
- **Cuff rings and tabs**
- **Armature plates**
- **Magnets**

… and many more!

Our advanced inventory management system is integrated with Joblogic and provides:

- Real-time stock visibility to monitor availability
- Automated reordering to prevent shortages
- Optimised supply planning to ensure continuous availability of critical components

If you're unsure which parts you need, our expert team is on hand to offer guidance and recommendations. We can also help with planned maintenance schedules, ensuring your equipment remains in peak condition and essential components are replaced before they impact performance.

FAST DISPATCH AND EXPERT INSTALLATION

Time is of the essence when you need a part, so we offer:

- **Same-day dispatch for items in stock**
- **Fast delivery options to minimise disruption**
- **On-site installation by our expert engineers**

As well as stocking parts in our large facility in Lancashire, all our service engineers carry a stock of critical spare parts in their vehicles. This enables immediate on-site replacements during maintenance visits and eliminates the need for separate callouts.

If you require an urgent replacement, please let us know and we'll find the fastest way to get your equipment operational again.

Envair Technology are committed to providing fast, reliable and expert spare parts support so you can focus on running your facility with confidence. Every part we supply meets the highest industry standards to ensure safety, compliance and operational efficiency. Our spare parts service is not just a supply chain but an integral part of our commitment to keeping your clean air equipment performing at its best.
